KCFM SNAP/Credit/Debit Tokens & Voucher Double Dollars Program Information

KCFM SNAP/Credit/Debit Token Program has been set up to provide a way for KCFM vendors to accept different forms of payment at the Knox County Farmers' Market. The program aims to promote accessibility and to help farmers increase sales.

The Token Program allows for KCFM patrons to run SNAP/credit/debit transactions at the KCFM information booth. Patrons are then given tokens in the amount that they paid which they are then able to spend at participating vendor booths. Vendors then, at the end of each market day, exchange tokens for a receipt at the information booth. Vendors are then paid once a month for the previous period's sales for the amount of sales they made and were paid for in tokens. Two different kinds of tokens will be used-one for SNAP transactions and one for credit/debit transactions. SNAP tokens can purchase **only** SNAP eligible food items.

- Vendors must abide by federal law regarding the products eligible to be purchased with SNAP benefits. Vendors must only accept SNAP tokens for the sale of SNAP eligible food items.
- Vendors must turn in tokens at the end of each market day.
- Vendors will be given a receipt for the amount of tokens exchanged upon receiving vendors' tokens at the end of each market.
- Vendors will be paid for the total previous period's sales every third Thursday of the month. Checks will be available for pick up at the information booth every third Thursday.
- Vendors will not be compensated for lost tokens.
- WIC vouchers is a separate program that is not affiliated with the Token Exchange Program. Vendors must sign up to accept WIC vouchers through the separate program.
- Violation of the rules of the Token Exchange Program or the Rules and Regulations of the KCFM will result in loss of vendor privileges. Vendors must abide by all applicable laws.
